

Jet-Set™ Accessories

Spray Wands

Get a spray wand and use your jet for high pressure washing and cleaning applications. Spray wands are made from durable high quality components. The triggers have a light touch, yet can withstand rough usage. The wands are insulated and designed for use with a downstream soap injector. A variety of stainless steel spray nozzles are available.

CR-300 Cart Reel™

The optional Cart-Reel™ is a must for professionals. It lets you use the power of a gas jet in buildings and confined spaces where exhaust fumes could be hazardous, while the gas jet stays outside. The Cart-Reel comes with pneumatic tires, a 300 ft. capacity hose reel, reel brake, gauge, and a shut-off valve.

HR-200-W Handy-Reel™ with Foot Pedal

For use with any jet, the compact 200 ft. capacity Handy-Reel can be attached to a gas jet so you can use the power of the gas unit inside a building. Or it can be taken up on a roof to clear vents while your Jet sits securely on the ground. The foot pedal gives you added safety. Water flows when you step on the pedal and stops when you lift your foot, so you have both hands free at all times to control the hose. The foot pedal is also available separately.
