

# Boxed Drain Auger & Drill Snake™

## Premium Boxed Drain Auger

**NCA** style 1/4" (6 mm) diameter boxed augers are coiled from high tensile strength wire. A bulb-shaped boring head quickly threads through strainer crossbars.

Smoothly working hand grips make the handle easier to spin, so the work goes faster. The plated grips also give the tool a more attractive, quality appearance.

The handle is formed from heavy-wall tubing and the thumb screw is 1/2" (13 mm) long x 1/4" (6 mm) for solid gripping without thread stripping. In addition, it has a good offset for greater turning leverage. "Dual Display" box can be hung from hooks or stacked. Complete directions on back

## Drill Snake™

An innovative tool that attaches to an electric drill. The snake is encased in a plastic tube that remains stationary as the snake is rotated by an electric drill. For safety, the unit is equipped with an automatic clutch that slips if the boring head gets caught in the line.
