

# Easy Rooter™

**A Heavy-Duty Machine for 3" thru 10" Lines**

The Easy Rooter is a tough, easy-to-use machine. It has a rugged powder coated steel frame with roll bars to protect the motor and heavy-duty roller bearings in the cage for longer life and greater motor efficiency on long runs. The cage holds 100 feet of 3/4" or 5/8" Flexicore cable.

An extra-long folding handle quickly locks in place, making it much easier to wheel the Easy Rooter to the job, without sacrificing the compact size needed for easy loading in a car trunk.

The Easy Rooter rolls smoothly on big 10" ball bearing wheels mounted on a half inch reinforced axle. Power is supplied by a 1/3 hp motor with capacitor start, thermal overload protection, and reverse switch. Standard safety features include an air-actuated foot pedal, ground fault circuit interrupter, and safety slip clutch.

## **Flexicore® Cable** **Wire Rope Center Construction**

Heavy-gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated. Has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage.

**Flexicore Patent Nos. 2,244,735 and 2,849,870**
