

Easy-Rooter Junior™

A rugged machine for 2" thru 3" and most 4" lines

The Easy Rooter Junior drives up to 100 feet of 1/2" cable, using the same heavy-duty motor that we use on the Easy Rooter. The machine rolls on eight inch ball bearing wheels and has a wheel break to lock the machine in position on the job. A plated folding handle makes it easier to load into a car trunk. The zinc-plated cage can be removed in less than a minute. The reinforced powder coated steel frame is built to take heavy duty use and abuse. A "roll bar" protects the motor when loading the machine into car trunk. A ground fault circuit interrupter, air actuated foot pedal, safety slip clutch and instructional video are standard equipment.

SPECIFICATIONS:

Weight: 65 lbs. without cable.

Capacity: 100 ft. of 1/2" Flexicore Wire Rope Center Cable.

Motor: 1/3 hp heavy duty, capacitor start, thermal overload protection, Forward/Off/Reverse Switch.

Safety Slip Clutch: Protects cable and operator.

Foot Pedal: Uses air pressure, so there's no electrical contact between pedal and motor.

Flexicore Cable: Heavy gauge wire coiled tightly around 42 strand aircraft-type wire rope and heat treated.

Power Cord: 20 ft., 3 wire; equipped with ground fault circuit interrupter.

Wheels: 8" Semi-pneumatic tires, with roller bearings.

Cutter Set: Arrow Head, 1 1/2" U-Cutter, 2" U-Cutter and Retrieving Tool. Others available.

Leather Gloves: With reinforced palm for hand protection.

How-To Video included.

Handle folds to take less space in car trunk

Cage is removed in less than a minute

The toughest tools down the line.™
