

Spin-Drive™

The Spin-Drive is a lightweight easy-to-operate manual drain cleaner for 2" through 4" drain lines. A comfortable handle on the crank turns the cage smoothly on self-aligning oilite bearings mounted on the front and rear of frame. A convenient carrying handle is mounted on the cage for easier portability. Equipped with Flexicore wire rope center cables, assuring you long life, as well as the strength and flexibility to do a good cleaning job.

*Includes 1-1/2" UC and 2" UC U-Cutters.

X25 Handy™

This easy-to-use hand tool clears sinks and bathroom drains smoothly and easily. The patented collet chuck tightens firmly on cable with just a quarter-turn. (Pat. No. 2,470,225) No chance of damaging sink, as there would be with a thumbscrew.

The turning handle and tubular grip handle eliminate wear and tear on hands.

The durable steel container features an open design to clean and inspect the cable between uses. Capacity of 35 feet of 3/8" cable or 50 feet of smaller diameter cables.

Down Head leads cable down the waste line – not up the stack. Also available with regular basin head.

Handy Units

Down Head Unit Number	Regular Head Unit Number	Length Feet	Diameter	Weight Pounds
